

Bond Strong. Seal Tight. Perform Better.

High Teck™ Double-Sided Acrylic Foam Tape delivers superior adhesion, vibration dampening, and reliable sealing—built to conform to uneven surfaces for dependable automotive applications.

Strong Adhesion. Reliable Sealing. Built for Performance.

High Teck™ Durable Double-Sided Acrylic Foam Tape is designed to conform to uneven surfaces while reducing noise and dampening vibrations. Its excellent adhesion and sealing capabilities make it ideal for a wide range of automotive and industrial applications. Convenient clam shell packaging allows for easy dispensing and storage in any shop environment.

Features & Benefits

Excellent Adhesion & Sealing

Provides a strong, reliable bond for a variety of applications.

Conforms to Uneven Surfaces

Flexible acrylic foam adapts to irregular surfaces for secure installation.

Noise & Vibration Dampening

Helps reduce rattles and vibrations for a quieter, more stable result.

Convenient Clam Shell Packaging

Easy-to-use packaging keeps tape organized and ready for quick application.
