

Complete Vehicle Protection for Every Repair.

High-performance masking solutions designed to protect interiors, wheels, and surfaces—keeping every vehicle clean, secure, and ready for a flawless finish.

High Teck Plastic Sheeting is designed to revolutionize your painting projects! Crafted from premium HDPE plastic, this sheeting is not only strong and flexible but also treated with Corona technology, ensuring optimal adhesion for your paint. Say goodbye to messy applications and wasted materials as paint effortlessly adheres to the film, providing you with smooth and professional results every time.

PART #	UOM	DESCRIPTION
HIT.112	SL	12' X 400' PLASTIC SHEETING .315MIL
HIT.116	SL	16' X 350' PLASTIC SHEETING .315MIL
HIT.120	SL	20' X 250' PLASTIC SHEETING .354MIL

Aqua Colored Premium Sheeting is tri-layered, and available in two different sizes (16'x350' & 20'x350'). It is corona treated for superior paint adhesion without flaking, the material offers excellent cling, it is solvent and bleed resistant, and can be cut precisely to the critical edge. It is competitively priced and performs well against other similar national branded products in its space.
