WHEN PERFORMANCE COUNTS

High Teck™ Premium Paint Suits deliver lightweight, breathable protection with anti-static carbon fiber technology—designed to improve productivity and keep contaminants out of your finish.

High Teck™ Premium Paint Suits

High Teck™ Premium Paint Suits are engineered to enhance performance and productivity in the paint booth. Lightweight, breathable, and manufactured to the highest standards, these suits deliver superior protection without sacrificing comfort or mobility.

- Extremely lightweight, breathable design
- Vented yoke back and underarm panels for improved airflow
- Carbon fiber thread technology to dissipate electrostatic charges
- Lint-free, densely woven polyester multi-filament fabric
- Elastic back and separate hood for enhanced freedom of movement
- Durable 2-way zipper for convenience and flexibility
- Functional chest pocket and back pocket
- Reusable and machine washable
