Sander

T105 Palm Sander

The High Teck™ T105 is a low profile, non-vac 6" palm sander for industrial/professional paint prep and finishing applications. A soft compression pad and low weight reduce fatigue while the superior metallurgy, heat treatment and sealed bearings offer longer life at an affordable price.

- PSA 6 DA Pad is included
- Sealed bearings and advanced metallurgy for extended life
- Super lightweight (1.5lbs) and compact for minimal fatigue
- Low noise and vibration design with soft compression pad

HIT.T105	EA	6" PALM SANDER

Grinder

T120 Medium Die Grinder

The High Teck™ 1/4 in medium die grinder delivers quality and performance, especially in tight spaces. It's positive grip and light weight make it a breeze to operate while the ball bearing construction and quality craftsmanship offer durability rarely found at an economical price.

- 1/2 hp motor with 22000 rpm
- Textured handle with safety lever
- Ball bearing construction

T121 Mini Angle Die Grinder

Durable, economical and suited for a wide range of grinding projects, the T121 Mini Angle Die Grinder offers valuable features in one compact tool. A 90 deg head configuration provides easy access to tight work spaces for grinding, de-burring, porting and polishing.

- 1/3 hp motor with 20000 rpm
- Compact size and lightweight
- Positive grip with self-locking throttle

HIT.T205	EA	DUAL TEMPERATURE HEAT GUN KIT

Professional Automotive Tools That Work as Hard as You Do.

Masking

T415 Masking Machine

The High Teck™ T415 is simple, functional and mobile. It offers space for two paper rolls and four tape rolls plus additional storage for supplies. No tools are needed when changing and aligning rolls with our simple wing nuts and adjustable washers. The heavy-duty steel construction remains mobile with 8 in wheels and comfort-grip handles.

- Includes bars for two (2) paper rolls and four (4) tape rolls
- Sharp, anodized blade for smooth cutting
- Wing nuts and large, adjustable washers for easy paper loading and alignment

T417 Tree Masking Station

The High Teck™ T417 masking station is a mobile, tree-style masker that accommodates four (4) rolls of up to 18 in paper and four (4) tape rolls. Setup and alignment are simple with wing nuts and adjustable collars. The station remains stable with a double-welded, heavy-duty steel frame and wide base design, yet is easily moved with one-hand mobility.

- Includes bars for four (4) paper rolls up to 18 in and four (4) tape rolls
- Sharp, anodized blade for smooth cutting
- Wing nuts and large, adjustable washers for easy paper loading and alignment
