

Vaseline SDS Report:

- 1、 Product name: Petrolatum (Vaseline); component of T550 Spray Gun Cleaning Kit
- 2、 CAS No.: 8009-03-8
- 3、 Physicochemical properties :
 - (1) Appearance: White color, well-distributed, odorless, has a certain wiredrawing
 - (2) Odor : No
 - (3) Relative density : 0.815-0.880g/cm³ (60°C)
 - (4) Drop melting Point : 45—80°C
 - (5) Dropping Point : 42—60°C
 - (6) Flash(ing) Point : 190°C
 - (7) Kinematic Viscosity : 10—20m m²/s(100°C)
 - (8) Deliquescence : Insoluble in water, but in Ether, Ethane and most volatile oil or non-volatile oil
 - (9) Main uses : Medicine, Cosmetics and lubricant, etc.
- 4、 Hazardous to the health : Non-toxic, but beware of the impurities to the health.
- 5、 Fire Fighting Instructions : This Vaseline is flammable, can be eradicated by the extinguisher nearby.
- 6、 Protective Measure : Normal work clothes
- 7、 Chemical Hazard Rescue method:
Use a simple method to collect it in a clear container
- 8、 Storage : Stored in sealed containers in dry and shade place, prevention of Sunshine is needed.
- 9、 Toxicity: No
